[Írány Las Vegas! Atlassian Summit 2019 élménybeszámoló](#)

Tibor Hegyi posted on May 15, 2019

A 2018 Villámelőadás verseny jutalma egy Las Vegas-i út volt az Atlassian Summitra, amit Nagy Géza nyert el a National Instruments-től. Géza élménybeszámolójából átérezheted az egész rendezvény hangulatát és hogy miért is érdemes repcsire ülni: Röpké 12 óra repülés és 6 óra autózás után megérkeztünk hétfő este a hotel Excalibur-ba, ami a külseje alapján egy középkor kastélyra emlékeztetett. Bár gyorsan csak „rágugliztunk” hogy hova kell érkeznünk,...

[A vision come true - Ultimate Permission Manager makes Confluence even better](#)

Daniel posted on May 03, 2019

The original idea of Ultimate Permission Manager stemmed from a consultancy project. One of our customers was anxious about the information potentially leaking, as they weren't sure who could view a rather sensitive Confluence page. This quickly made us realize the importance of permission transparency, in a time when there weren't any all-round solutions for this. During the creation of a custom macro and a private add-on,...

[Comprehensive Management of JIRA Issues with Email This Issue and Smart Attachments](#)

Gáspár Attila posted on Jun 08, 2017

This is a guest post from StiltSoft <https://stiltsoft.com/> company, a small team of Atlassian Experts and avid fans of JIRA and Confluence from Belarus. StiltSoft is the Atlassian Verified Vendor that develops Smart Attachments for JIRA, Table Filter for Confluence, Awesome Graphs for Bitbucket and other add-ons. This blog post will highlight the capabilities for organizing the tasks and attachments in Atlassian JIRA with the minimal investments and maximal efficiency....

[Atlassian: It's Like Playing with LEGO](#)

Gáspár Attila posted on Apr 25, 2017

The Box is Good It's like playing with LEGO. All you have to do is find the right piece and put it in the right place. It's pretty easy to build your first project, but it can get tricky when your teammates get excited about it and come up with tons of new ideas how to make it better and better. To Use the Box: Stay Inside As Consultants, we prefer staying in the box. The reason why we're superfast is not that we eat and train like Usain Bolt....

[Integration opportunities - The real power of Atlassian](#)

Gáspár Attila posted on May 09, 2016

One of the most important benefits of the Atlassian ecosystem is the power of integration opportunities. The difference between using one or two Atlassian applications is not merely the additional functionality you gain from the second one but also the new dimensions deriving from the synergy. This post demonstrates the power of integration and explores how Atlassian products can be connected with HipChat making it the central source of notifications and a platform of team collaboration....

[JIRA Migration Stories: Migrate projects to live instances](#)

Tibor Hegyi posted on Mar 14, 2016

This article is part of our migration stories: a series of blog posts we are publishing here from time to time inspired by our projects we fulfill for our customers. One of our customers (a huge European logistics company's Hungarian headquarter) has offices throughout Europe. However they wanted to federate their multiple JIRA instances into a single one. As part of this huge project,...

[Death of a dinosaur: upgrading a Confluence 2.9 instance](#)

Tibor Hegyi posted on Feb 08, 2016

A customer of ours (Morphologic Localisation Ltd <http://www.morphologic-localisation.eu/>), for whom we developed a JIRA addon many years ago to integrate JIRA with their legacy systems, has recently contacted us to help them upgrade their Confluence instance to the latest version. The first question that everyone would have asked was what version of Confluence they had. The answer was quite shocking: Confluence 2.9. we got excited and afraid at the same time....

[We are Atlassian Verified Vendor - Learn what benefits it comes with](#)

Gáspár Attila posted on Jan 21, 2016

We are happy and proud to announce that Atlassian has qualified us as Verified Vendor! We are the only one in Hungary as of now! "Ok, congrats!" - you could say - "But what's in it for me?" More than you could imagine! Let me sum up the criteria Atlassian requires all vendors to meet to become Atlassian Verified and how we meet them. [atlassian_verified_badge.png](#) Paid via Atlassian add-ons are installed in at least 500 active instances This is a tough requirement hard to meet....

[Atlassian will never release JIRA any more](#)

Gáspár Attila posted on Jan 11, 2016

Don't worry, it's not so terrifying news as you think! Publishing JIRA7 maybe the biggest change in the history of the product. Atlassian announced to separate JIRA into 3 different products targetting different types of teams JIRA Core, for business teams JIRA Software, for agile teams JIRA Service Desk, for support teams FAQ We collected some useful information to help you understand the significant changes and benefits that JIRA's new variations bring to all customers....
